

VISIONARY SOLUTIONS PVT

VISIONARY SOLUTIONS PAKISTAN

Private Limited

The idea of establishing a consortium of professionals under 'Visionary Solutions Pakistan' was to intervene, advise and manage the issues faced by individuals and organizations. It benefits from a team of retired senior and middle order officers hailing from armed forces, police and intelligence; having vast experience and expertise, averaging 35 to 40 years in criminal investigations, dispute resolution, litigation, prosecution and conduct of security risk assessments; acquired during their prestigious career in the respective services.

Why Visionary Solutions Pakistan

The corporate sector organizations, private companies, international institutions, banks, individuals, Pakistanis living abroad and NGOs often lack resources, guidance and support to skillfully handle their issues related to security, court cases, management of disputes impacting business, various threats, company image or reputation and organizational standing etc.

After analyzing the crimes and its handling during the last decade, it was found that the percentage of conviction remained very low as compared to the percentage of cases which could not be traced during investigation. As per Pakistan Institute of Legislative Development and Transparency (PILDAT), during the year 2023 the conviction rate was only 8.66%. Besides many other reasons the main cause of this low conviction rate was inconclusive investigations and professional follow up.

In the province of Punjab alone the percentage of untraced cases was 28.9% during the year 2023. The situation of prosecution in electricity and gas theft cases also portrays very grim picture. This situation depicts wide vacuum, which if filled through professionally competent and timely advice can produce rewarding results.

In the backdrop of such a scenario, it motivated the initiative for establishing a consortium of professionals which could intervene, advise and manage the issues faced by individuals and organizations. Therefore, Visionary Solutions Pakistan has been formed which benefits from its team of retired senior and middle order officers hailing from armed forces, police and intelligence. They have vast experience and expertise, averaging 35 to 40 years in criminal investigations, dispute resolution, litigation, prosecution and conduct of security risk assessments; acquired during their prestigious career in the respective services.

Visionary Solutions Pakistan is committed to provide sense of security to the individuals and organizations exposed or vulnerable to varying security risks, aimed at fortifying their confidence in the Rule of Law, Criminal Justice System of Pakistan and improvement in their personal lives and support to their businesses.

We are passionate in the discipline of raising our voice. While working with humanitarian organizations, we apply an integrated methodology of investigating, identifying, and uncovering human rights violations in order to find out lapses during investigations, litigation and prosecution with a purpose of providing relief to the victims and vulnerable

prisoners. We carryout case specific studies for provision of fact based material for public and policy advocacy and improving the Criminal Justice System of Pakistan.

About Us

Visionary Solutions Pakistan is based in Lahore to facilitate individuals at home and abroad, organizations and vulnerable Pakistanis faced with security risks and criminal cases.

Visionary Solutions Pakistan is a unique and exclusive professional consortium, which benefits from the experience and expertise of retired senior officers of the ranks of DIG Police, Brigadiers, SSP and SP. Our team possesses rich experience of corporate security, security risk assessment, investigations, collection of evidence and information, police matters, litigation, prosecutions, dispute resolution and working with diverse international institutions and organizations.

Strength of our team rests in the middle order experienced field staff drawn from police of the ranks of DSP, Inspectors and junior ranks. They operate under the direct supervision of senior management and legal practitioners. They have expertise of handling all types of investigations including criminal cases, fact finding, private and discreet inquires etc. They have decade's long experience of handling police, legal cases, court matters and gathering of evidence.

We also offer well trained, verified and smart security staff for premises security and escorting in collaboration with our sister security companies which have well trained and properly equipped guards for close personal protection. We can also provide fleet of specialized bullet proof vehicles for protection during travel to sensitive and vulnerable areas.

Mission

Provision of unique professional services under one roof through our innovative, integrated and inclusive approach for advice, management and professional handling of issues faced by individuals and organizations.

Vision

Visionary Solutions Pakistan envisions provision of unique, exceptionally professional and wide-ranging security services all over Pakistan and is committed to provide sense of security to the individuals and organizations exposed or vulnerable to varying security risks, aimed at fortifying their confidence in the Rule of Law and Criminal Justice System of Pakistan.
